PURPOSE

The Purpose of this animal project is to achieve the following:

- a. To acquire an understanding of the animal industry by preparing for, purchasing, caring for, and keeping records on one or more head of animals.
- b. To be able to identify the types and breeds of animals and employ efficient methods of production and marketing.
- c. To understand the business aspects and economics of purchasing animals, feed facilities, and equipment for an animal project.
- d. To develop integrity, sportsmanship, and cooperation
- e. To develop leadership abilities, build character, and become responsible citizens.

Setting Project Goals

Choose several goals for your project. Goals should be established at the beginning of your project. They should be challenging, yet attainable. Goals should include all aspects of your project. At the close of the project, the achievements should be compared with your goals.

- Raise my animal(s) to completion and exhibit at the fair.
- Have my animal(s) meet market animal standards for the breed of animal.
- Learn animal husbandry practices to promote good health for my project animal(s).
- Take full responsibility for growing and marketing a market animal(s).
- Complete my record book to the best of my ability.
- Teach about my project in a professional manner.

Project Terms and Explanations

Notes for Project Inventory

1. **Project Year** - Based on a calendar year. Current project year is same year as current Fair.
2. **Date Acquired** - List the date you obtained this item, on items older than 1 year, the year will be sufficient.
3. **Purchase cost or value** - What did this item cost when you obtained it? (Fair market value)
4. **Value at Beginning of Project** - Same as purchase cost for items purchased current calendar year. On items from previous years this should be the value from last year's ending inventory or depreciated value of 10% of purchase cost per calendar year.
5. **Depreciation of 10%** - This will be 10%, per calendar year, of the original purchase cost for the items you will still have at the end of the project. This includes items you had at the beginning of the project as well as items purchased during the current calendar year. Depreciation is the loss in value of your assets and is an expense.
6. **Value at the end of the project** - This is the value at the beginning of the project minus the depreciation.

Examples:

Items Description	Date Acquired	Purchase Cost or Value	Value at beginning of project	Depreciation (10% of purchase cost, for this calendar year)	Value at end of project
Rope	Purchased 4 years ago	5.00	(Depreciated 10% for 3 years) 3.50	.50	3.00
